SSC

CGPA : 9.5

TECHNICAL SKILLS

Devops | Python | Data structures and Algorithms | Cloud Computing | AWS | Linux | Shell Scripting | SQL | React | Web development

Tools: Docker | Kubernetes | Git | Jenkins | Terraform | Ansible |

EXPERIENCE

Organization: Cognizant

2024 September - present

Role : Juniors Devops Engineer

Responsibilities:

- Automated operational tasks in AWS Cloud and managed infrastructure using CloudFormation templates.
- Developed Python scripts to streamline infrastructure management and improve deployment efficiency.
- Utilized AWS services including EC2, IAM, Lambda, S3, and RDS, with exposure to Linux and Azure environments.

Key Achievement

- Rewarded by the manager for automating the daily health check process, reducing human effort from 1.5 hours to 2 minutes.

Cognizant (Internship)

July 2024 to September 2024

Role: DevOps Intern

- Worked with tools such as Ansible, Git, Docker, and Kubernetes to support infrastructure automation.
- Gained exposure to Azure Cloud services for deployment and management.
- Assisted in implementing CI/CD pipelines and containerized applications.

ACADEMIC PROJECTS

ReuseHub: Developed a full-stack web application to facilitate buying and selling of second-hand goods, promoting sustainability.

MCT Scholarship Portal: Built a MERN stack portal with admin and student logins for scholarship applications, enabling admins to review and approve requests.

ACADEMIC ACHIEVEMENTS

- Awarded GeeksforGeeks T-shirt and bag for problem-solving skills.
 - Ranked in Top 5 at institute level on GeeksforGeeks with 1300 points.
-

CERTIFICATIONS

- AWS Certified Cloud Practitioner
- Microsoft Certified: Azure Fundamentals (AZ-900)
